

## Registering to Access Git edX Courses

There are three short courses about how to use the git version control tool. These are hosted on the edX platform.

The links to the courses in BlackBoard should automatically register you. If they do not, you will need to register with edX in order to access the short courses. To register go to <https://edge.edx.org/>.

If you do not already have an edX account linked to your UQ student account, you will need to create an account. Click on the “Register” tab.

If you do have an edX account linked to your UQ student account, then click on the link “Institution/campus credentials” to be able to sign in using UQ’s single sign-on. You can skip to the final page of these instructions to find the links to register for the git courses.

When you click on the “Register” tab you will be shown a registration screen.

On the registration screen, make sure that you click on the “register with: Institution/campus credentials” link. Do not fill in your details in the textboxes.

The screenshot shows a web browser window with the URL <https://authn.edge.edx.org/register>. The page has a dark blue header with the edX logo and a large white text area on the left that reads "Start learning with edX". The main content area is titled "Register" and includes fields for "Full name", "Email", "Public username", "Password" (with an eye icon), and "Country/Region" (set to "Australia"). Below these fields is a note about agreeing to the Terms of Service and Honor Code and acknowledging privacy processing. At the bottom, there is a red button labeled "Create an account" and a section titled "Or register with:" which includes a link to "Institution/campus credentials" (circled in red) and social media links for Facebook and Google.

Institution/campus credentials

Facebook Google

Select “University of Queensland” from the list of institutions.

The screenshot shows a web browser window for the edX registration page at <https://authn.edge.edx.org/register>. The left side of the screen features a dark teal background with the text "Start learning with edX". The right side is a white registration form. At the top, there is a header with the "Register | edX" logo and a back/forward/home icon. Below the header, the URL is displayed. On the right, there is a "Register" button and a link to "Register with institution/campus credentials". A list of institutions is provided, with "University of Queensland" highlighted by a red oval. Other institutions listed include Boston University, Curtin University, Georgia Tech, Harvard University, National University of Singapore, Princeton University, University of British Columbia, and University of California, Berkeley.

Choose your institution from the list below

Boston University

Curtin University

Georgia Tech

Harvard University

National University of Singapore

Princeton University

University of British Columbia

University of California, Berkeley

University of Queensland

This will take you to UQ's single sign-on page. Enter your UQ username and password to register your student account with edX.

The screenshot shows a web browser window with the URL [https://auth.uq.edu.au/idp/module.php/core/loginuserpass.php?AuthState=\\_d31e55ac](https://auth.uq.edu.au/idp/module.php/core/loginuserpass.php?AuthState=_d31e55ac). The page is titled "UQ Authenticate". At the top left is the University of Queensland logo. The main content area features a large green circular icon containing a padlock and a green arrow pointing clockwise. Below this is the text "UQ Authenticate". A login form is centered, containing fields for "UQ username" and "Password", and a large blue "LOGIN" button. Below the button is a checkbox for "Remember my username". At the bottom, there are links for "Trouble logging in?" and "Terms of use".

Once you are registered, you can login with your UQ student account. From the sign in page, you need to click on the “Institution/campus credentials” link. This will take you to the same list of universities as when you registered.

Click on the “University of Queensland” link and then enter your UQ username and password at the UQ Single Sign-On page. Once you have signed in, you will be taken to the list of courses in which you are enrolled.

You can enrol in the git short courses by clicking on the links below.

Course 1: [Introduction to Version Control with Git](#)

Course 2: [Version Control for Teams using Git](#)

Course 3: [Git Workflows for Large Teams](#)
