Question

Who has heard of *DevOps*?

Question

Who has used *DevOps*?

The larger story

Server Config Config Management

Application Config Config Files

Provisioning Infrastructure Code

Building Continuous Integration

Deployment Continuous Deployment

Testing Automated Tests

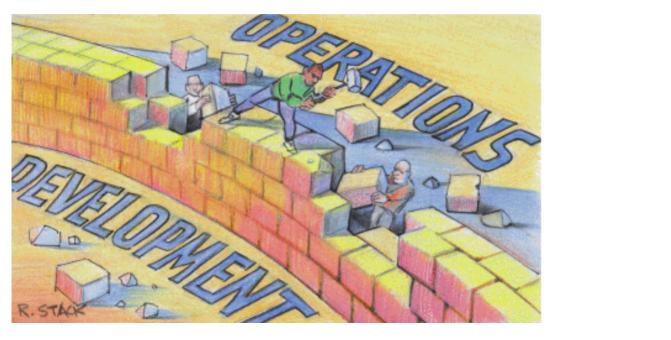

Database Administration Schema Migration

C---if--ti--- B-b--i--- D-i---

Specifications Behaviour Driven Development

Question

What is \underline{DevOps} ?

What is DevOps?[Senapathi et al., 2018]

• A combination of software development and IT operations skills

IT operations skills

respect, and trust

• A combination of *software development* and

• A *cultural movement* that enables rapid

characteristics: open communication,

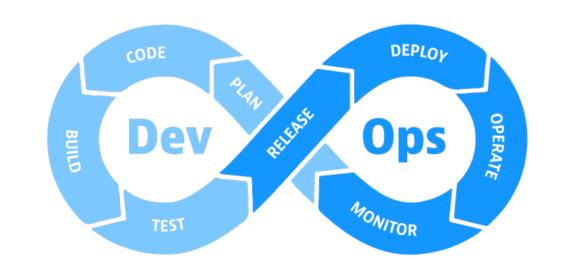

incentive and responsibility alignment,

development with four defining

Important
Continuous *

$Also\ Important$

If it hurts, do it more often

Tooling

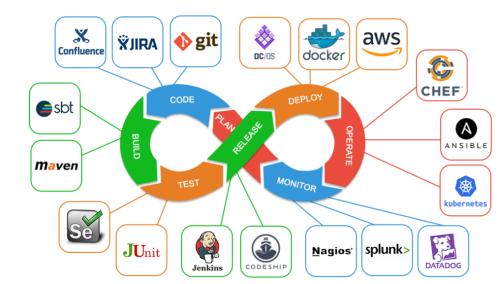

- 1. Continuous development
- 2. Continuous integration
- 3. Continuous *testing*
- 4. Continuous deployment
- 5. Continuous *operations*
- 6. Continuous monitoring7. Continuous feedback

Small Group Discussion

Describe the tools you have identified for the Continuous * practices.

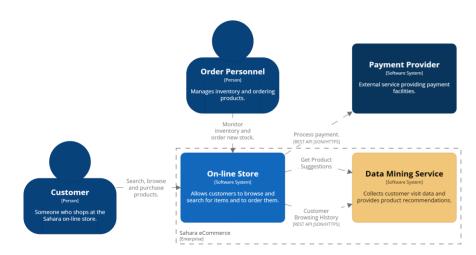

Class Discussion

Summarise the tools identified by each group and the practices they support.

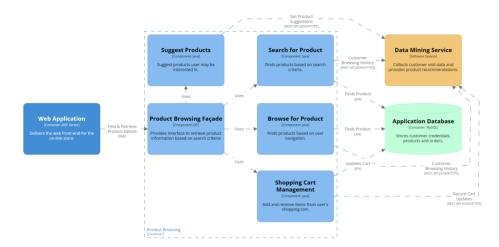

Today

Design a DevOps pipeline for *Sahara*

[System Context] On-line Store

[Component] On-line Store - Product Browsing Sunday, 20 March 2022, 21:51 Australian Eastern Standard Time

Survey, 20 March 2022, 21.51 Australian castern standard fille

1. What *types of tools* would be required?

- 1. What *types of tools* would be required?
- 2. Which *specific tools* would you choose?

- 1 7 7 7 7
- 1. What *types of tools* would be required?
- 2. Which specific tools would you choose?

 3. On which type of computing infrastructu
 - 3. On which type of *computing infrastructure* would you deliver the system?

- 1. What *types of tools* would be required?
- 2. Which *specific tools* would you choose?
- 3. On which type of *computing infrastructure*
- would you deliver the system?
- 4. What parts of the deployment and operations processes could be *automated*?

Discussion

Present the DevOps pipelines that you have developed to the rest of the class.

Challenge 1: DevOps in Practice

Do the seven necessary DevOps practices map perfectly to the enablers in the article by Senapathi et al [Senapathi et al., 2018]?

Technological Enablers

- Build automation
- Test automation
- Deployment automation
- Monitoring automation
- Recovery automation
- Infrastructure automation
- Configuration management for code and infrastructure
- *Metrics* automation
